

The Daily Market Report

PORTLAND, July 28.—Loganberry growers have this year made more money from their crop than they did last year, for the reason that they exercised better judgment in the marketing of the fruit. Last season on two or three occasions they flooded the market, which had the effect of putting prices down and keeping them here. This year they shipped the fruit in more carefully, with the result that better prices have been maintained. The range generally has been 75 cents to \$1 a crate. The bulk of the crop has been marketed.

Best city creamery butter advanced from 25 cents to 27½ cents a pound today, while the fancy grade was raised to 24 cents and store butter from 16 to 18 cents. The market was reported firm at the new prices, production diminishing steadily at this time of the year. On Front street the best brands of country creamery have been comparatively scarce for a week or more.

DUTCH TAKE STEPS

Sending Cruiser Gelderland to Venezuela

AS PRECAUTIOUS MEASURE

Curiosity Felt In Washington As To Whether The Ship Is Sent For Other Reasons Than To Protect Dutch Interests In Venezuela.

WASHINGTON, July 28.—Considerable curiosity exists in Washington as to whether the Dutch government in despatching the cruiser Gelderland to Venezuela contemplates any further step than merely "The protection of Dutch interests in that country." This is rather an elastic term and may be called upon to cover a wide latitude of action. It is possible that the Netherlands government, in view of anti-Venezuelan demonstrations Saturday and Sunday fears reprisals by Venezuelans on Hollanders residing in that country and thinks it best to have available warships in case of emergency. Curacao merchants claim to have suffered financial loss as a result of various orders of President Castro since the prevalence of the bubonic plague, but it is not believed here, that the Dutch government expects to take any retaliatory steps on Venezuelan territory to redress such grievances. At any rate, whatever the plan may be Holland has not communicated her intentions to this government and nothing indicative of her course is officially known in Washington.

It is pointed out here that if Holland contemplates taking measures against Venezuela there are several European countries as well as America, whose wishes should first be consulted. Venezuela has been for some time paying monthly installments on her foreign debt, the result of an arbitration arranged several years ago by American Minister Bowen, when the allied powers of Europe blockaded the principal ports of Venezuela and threatened to take more forceful measures because of President Castro's refusal to meet his obligations. These countries would naturally want something to say regarding the steps to be taken by Holland.

In official circles attention is also called to the misapprehension which appears to prevail in regard to the Monroe doctrine in the discussion of the relations of European governments towards the countries south of the United States. As stated by President Roosevelt in his first message to congress, that doctrine is a declaration that there must be no territorial aggrandizement by any non-American power at the expense of any American power on American soil.

"It is nowise intended as hostile to any nation in the old world" said the president.

Over Thirty-Five Years.

In 1872 there was a great deal of diarrhoea, dysentery and cholera infantum. It was at this time that Chamberlain's Colic, Cholera and Diarrhoea Remedy was first brought into use. It proved more successful than any other remedy or treatment, and has for thirty-five years maintained its sale and use has extended to every part of the United States and to many foreign countries. Nine druggists out of ten will recommend it when their opinion is asked, although they have other medicines that pay them a greater profit. It can always be depended upon, even in the most severe and dangerous cases. For sale by Frank Hart and leading druggists.
